

Emily Streske

Chief Operating Officer | Cybersecurity Operations | MSP/MSSP Service Delivery | Strategic Execution

estreske@shieldtechnologiesllc.com | [LinkedIn](#)

Operations and cybersecurity leader serving as Chief Operating Officer at Shield Technologies. I lead operational execution, strategic alignment, MSP and cybersecurity service delivery, process governance, and client communication with a focus on stability, accountability, and trusted outcomes. My background blends executive operations, security-minded decision-making, technology delivery, documentation discipline, and high-pressure service environments.

CORE LEADERSHIP STRENGTHS

Operational Leadership	Strategic Execution	MSP / MSSP Service Delivery
Cybersecurity Operations	Risk-Aware Decision-Making	Process & Policy Governance
Client Communication	Documentation Standards	Cross-Functional Accountability
Business Continuity	Team Coordination	High-Pressure Problem Solving

PROFESSIONAL EXPERIENCE

Chief Operating & Strategy Officer (COO) | Shield Technologies LLC
East Troy, WI

Apr 2026 - Present

- Lead day-to-day operations and strategic execution across company priorities, client engagements, and service delivery.
- Oversee MSP and cybersecurity service delivery with a focus on continuity, clarity, accountability, and professional client outcomes.
- Strengthen operational processes, policies, documentation standards, and governance practices to support predictable execution.
- Guide client experience and communication during complex, sensitive, or high-impact engagements requiring calm judgment and clear direction.
- Serve as the connective layer between strategic vision and implementation, helping teams translate priorities into disciplined follow-through.

Household Operations & Care Management Lead | Streske Household
Pewaukee, WI

Aug 2020 - Present

- Manage complex scheduling, budgeting, medical coordination, and daily operational routines for a household of five.
- Balance caregiving responsibilities with professional and freelance work through prioritization, planning, and disciplined time management.
- Coordinate appointments, follow-ups, records, and communications with service providers while maintaining continuity and reliability.

Emergency Medical Technician Basic | Paratech Ambulance Service Inc.
Milwaukee, WI

Mar 2020 - Aug 2020

- Provided emergency medical support at scenes, in transit, and in pre-hospital environments while following safety and patient-care protocols.
- Assessed patient status, vital signs, and scene requirements to support timely care decisions under pressure.
- Protected patients, colleagues, and the public by complying with communicable disease prevention and safety procedures.

PCA / HUC Patient Care Assistant / Health Unit

Aug 2015 - Dec 2016

Coordinator | St. Francis Hospital

Milwaukee, WI

- Tracked and communicated patient information to support treatment planning, care coordination, and operational flow.
- Recorded patient vital signs, observed conditions, and supported care documentation for clinical teams.
- Supported day-to-day administrative and operational functions in a 40-bed facility across multiple departments.

Certified Nursing Assistant | Jackson Crossings

Nov 2013 - Aug 2014

Jackson, WI

- Delivered hands-on patient care under RN supervision while following facility guidelines and care standards.
- Supported patients with mobility needs, assistive devices, observations, and documentation of care needs.

EDUCATION

Bachelor's Degree, Cybersecurity | Penn State University

2024 - 2026
